02

CARNET 02 · GRILLES 4 × 4

Mode d'emploi

Relie les pastilles dans l'ordre : 1 vers 2, 2 vers 3, et ainsi de suite, par un seul chemin continu.

Le chemin avance d'une case à la fois, horizontalement ou verticalement. Il ne se croise pas, ne passe pas deux fois par la même case, et ne traverse pas un mur (trait noir).

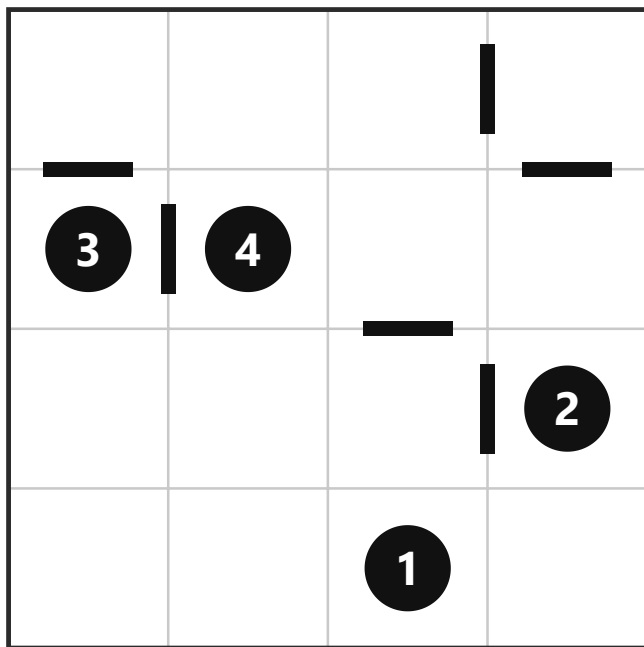

S'il sort par un bord sans mur, il rentre par le bord en face, dans la même rangée ou la même colonne.

Toutes les pastilles sont reliées dans l'ordre, et toutes les cases sont traversées.

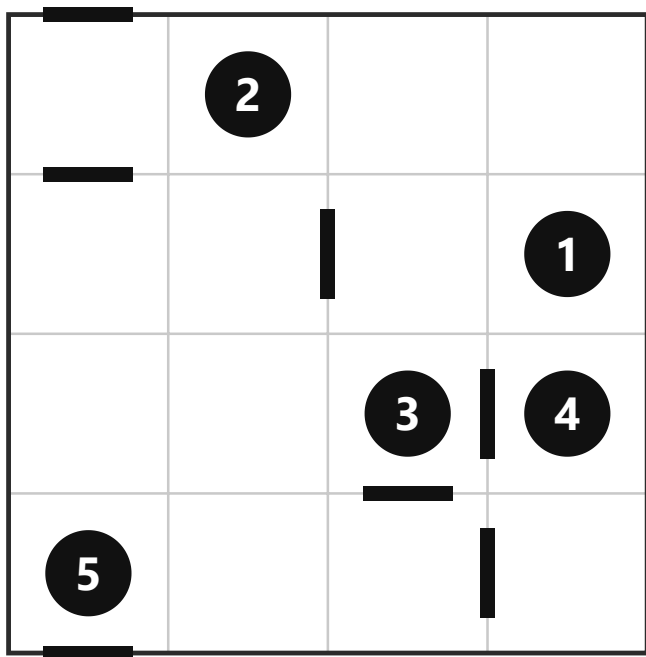

Une seule solution.

C'est tout pour ce carnet.

Douze grilles, douze solutions, à la fin.

Une grille bloque ? La règle est en page 2. Un mur sur un bord ferme le passage vers le bord en face.

Un retour m'est utile : trop facile, trop dur, règle pas claire.
